

CF Training

Where to find existing resources and how to request future topics

Sadie Bartholomew
National Centre for Atmospheric Science & University of Reading

On behalf of the CF Training committee, with special thanks to Alison Pamment (chair), and first training session presenters

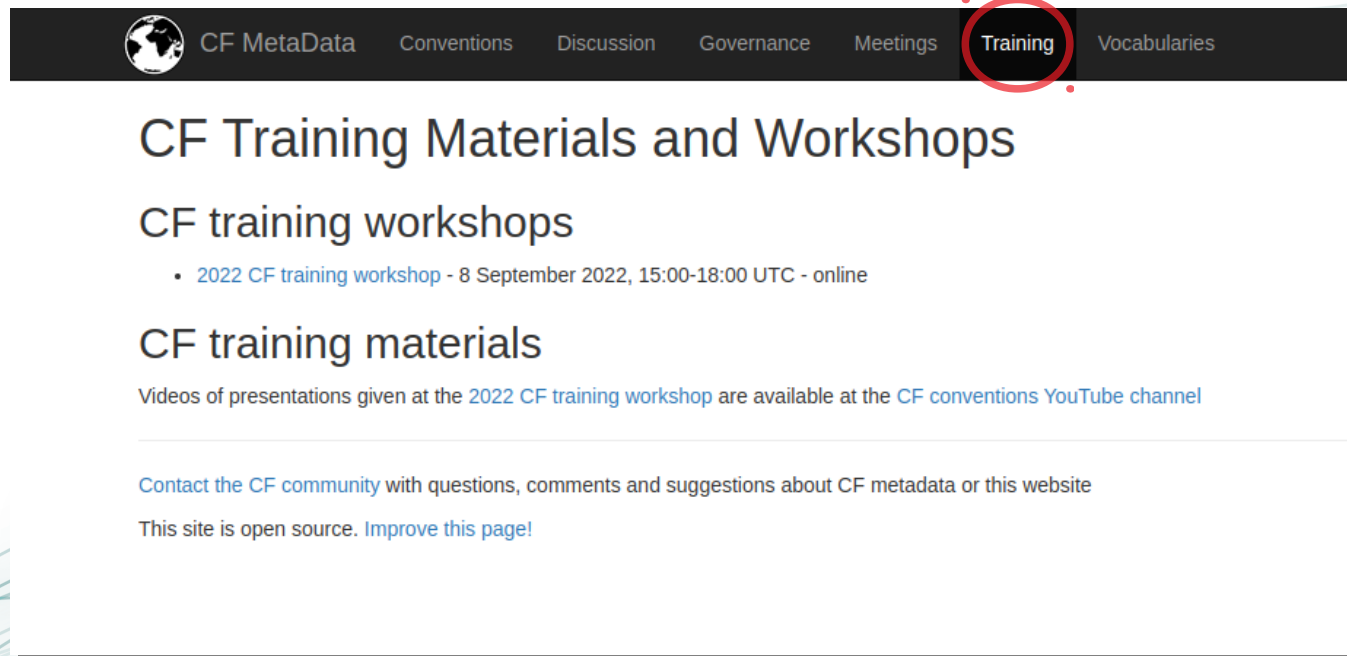

2023 CF Workshop, Lightning Talks session
5th October 2023

Outline

- Training for the CF Conventions initiated last year
 - *'the education, instruction, or discipline of a person or thing'* [definition (1) for 'training' as a noun from dictionary.com]
 - Official and dedicated training, created *by* the community *for* the community
- First live session held virtually week before 2022 Workshop, 15:00 – 18:00 UTC, 8th September '22
 - Planning for this began ~2021
 - Successfully delivered, 50+ registered, ~30 attended any one part
 - First session was aimed primarily at users new or fairly new to CF
- Sustainability is a key consideration
 - Pre-recorded session videos made openly and freely available
 - Aiming to build up a useful, accessible community resource

Existing resources and where to find them

→ <https://cfconventions.org/Training/>

The screenshot shows the 'Training' page of the CF Conventions website. The navigation bar at the top includes links for 'CF MetaData', 'Conventions', 'Discussion', 'Governance', 'Meetings', 'Training' (highlighted with a red circle), and 'Vocabularies'. The main heading is 'CF Training Materials and Workshops'. Below this, there is a section for 'CF training workshops' with a bullet point for the '2022 CF training workshop' held on 8 September 2022. Another section for 'CF training materials' mentions that videos from the 2022 workshop are available on the CF conventions YouTube channel. At the bottom, there is contact information for the CF community and a link to improve the page.

Feedback and status

- Initial training live session in Sept. 2022 was well-received (immediate feedback taken)
- However, viewing figures on the online pre-recorded videos are O(10) views (max. 117, min. 10) so the online resources don't seem to be being used much → probably need more advertising

Did you find this training session useful?

• Very useful • Fairly useful • Not at all useful

Towards the future...

- We want to develop the training further incrementally!

Initial training: generalised, focused on
beginners and those fairly new to CF

New training:
more advanced

New training:
more specialised

How to request future topics

- I have set up a Google Form (no sign-in required) to provide a (hopefully) simple means to get in touch with us about the training. In particular, we'd love to hear from you or anyone if:
 - you know of any topic(s) or theme(s) etc. that you, or others that you know of, would like training on, relating to the CF Conventions but potentially (much) more niche than our initial videos
 - you want to volunteer to help train on any particular topic
 - you have any questions or thoughts relating to training
- Form can be found at:
<https://forms.gle/HhVPpzLzbgt6xudh7>

Thanks for listening. Any questions?

Please do:

- Make use of and advertise the training resources!
- Get in touch to request specific training topics/themes that you or others would find useful (use the Google Form) and/or volunteer to help develop the training!

• Quick links:

- Training page on the website: cfconventions.org/Training/
- YouTube channel hosting all of the training videos: www.youtube.com/@cfconventions4415
- Google Form: forms.gle/HhVPpzLzbgt6xudh7
- For informal training talk: sadie.bartholomew@ncas.ac.uk
